Dear Kathy,

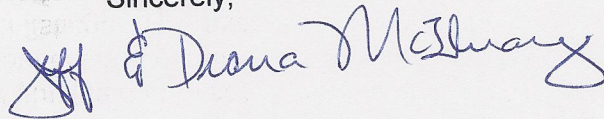

We would like to take this opportunity to thank you for all your assistance over the course of the purchase of our home. We were unfamiliar with the procedures and requirements for purchasing a new home, and you helped us every step of the way.

Since we were shopping from out of town, you realized that we didn't have a lot of extra time. We talked to you about what we wanted and you lined up a series of homes for us to look at. You took the extra step of contacting other real estate agents to see if there was something coming onto the market that wasn't in current listings. This extra step found us the home we were looking for. I know we never would have found it without your help and knowledge.

You helped us with the home inspection and walked us through that process. You stayed with our purchase throughout the entire paper work process and sat with us at the closing. Having you there eased our minds and reduced the stress level of purchasing a new home to a tolerable level. We really appreciate all you did for us. I'm sure you got tired of all the phone calls asking questions.

Once again, thanks for all your help and assistance. I don't know where we would be living without your help.

Sincerely,

 Jeff & Diana McInay
